

Make A Wish

(Chris Rosser ©2009, BMI)

Close your eyes, make a wish
Blow the candles out
No surprise, a birthday kiss
Slow the moment down

Count the candles on the cake
Can we fit one more
Another year of love we make
Better than before

Chorus
Years go faster
Faster, the older we live
Ever after, after we happily
Make a wish

On the day that you were born
God was smiling down
Launched you naked into the world
It's hard to remember now

Chorus
Years go faster
Faster, the older we live
Ever after, after we happily
Make a wish

Ooh, happily make a wish
Ooh, after we make a wish

Close your eyes, make a wish
Blow the candles out
We'll remember all of this
When next year comes around
